BRAND VETO SLAP AT HEALTH BOARD Physicians, Aroused by Loss of Ambulance Ordinance, May Give Mayor Resignations.

ARRANGE CONFERENCE TODAY Members Expect to Demand Explanation of Changed Attitude on Appropriation.

Aroused because Mayor Shank vetoed an ordinance authorizing the purchase of a new automobile ambulance for the City Hospital, members of the City Board of Health will call on the mayor this morning and ask the reasons for what they say is a direct blow at the board.

At a meeting of the Health Board yesterday afternoon the physicians declared Mayor Shank recommended the purchase of the new ambulance, and supported their assertions by records of a meeting May 7.

The members of the board were impatient, and it appeared for a time that some resignations would be presented to the mayor today.

Dr. M. J. Spencer, one of the members, at one time made a motion that the members present their resignations to Mayor Shank this morning.

This did not receive a second, but the other members agreed to ask an explanation of the mayor. It appeared yesterday if Mayor Shank does not rescind his veto the town physicians may ask him to seek a new Board of Health.

According to the four members of the Health Board, Mayor Shank wrote a letter to the board on May 7, in which he asked that prices be obtained on the probable cost of a new ambulance at the City Hospital.

When Mayor Shank was informed of what the board members regarded as his veto he said that he would be impossible for him now to rescind his action.

"I have come to the conclusion," the mayor said, "that we have got to be cutting down expenses, and we might just as well begin now. If we are going to get by this year and have any money left over, we have got to be cutting down expenses, that's all there is to that."

When Dr. Spencer's motion to resign in a body failed to find a second in the board, Dr. Edmund D. Clark, chairman, made a suggestion that the board confer with the mayor about his veto.

"What we should do," said Mr. Clark, "is to go to the mayor and have a thorough understanding with him regarding the treasury. We have got to make some give any reason why there is not as much of a necessity for the new ambulance as there is."

"What we all ought to do," said Dr. Clark, "is to stand together. This action on the part of the mayor is a public slap at the board of health."

"The other members were equally indignant, and unless the mayor gives some good excuse for disapproving the ordinance it is apparent that the board members will speak their mind to the mayor."

Two other ordinances were vetoed by Mayor Shank yesterday morning. The ordinance appropriating \$2,000 for the Children's Aid association to carry on the supplying of pure milk was vetoed.

The mayor believes a thorough investigation of the milk supply is necessary in situations should be made before public funds are appropriated for their use.

He said he understood the association is paying \$1.40 a gallon for its milk, which he believes is too much. At the office of the association it was said yesterday that the milk costs only 41 cents a gallon.

It was also said that the association likely will have to discontinue its work for the remainder of the year, now that the ordinance has been vetoed.

The third ordinance which Mayor Shank sent back to the Council without his approval is the one creating a department of health in the city.

The ordinance was introduced by Councilman Charles F. Copeland chairman of the Investigation and Impachment Committee of the City Council. This committee now is investigating the supposed plot concerning Sunday closing.
